As a Software Engineer, I am seeking a challenging role where I can leverage my expertise in Java, HTML, CSS, JavaScript, SQL, Android Studio, and Data Structures. With a strong foundation in computer science fundamentals, I am passionate about building efficient, scalable software solutions and contributing to innovative projects that solve complex problems

Education

Gyan Sagar College Of Engineering	Sagar M.P. , India
Bachelor's of Technology in Computer Science Engineering	Nov 2021 – May 2025(expected)

Workshop

- Full Stack Development Workshop – Ypsilon Pvt Ltd
- Date of Completion (Feb 2024)
  - Gained hands-on experience in front-end and back-end development
  - Worked with technologies such as JavaScript, HTML, CSS, and SQL
  - Built full-stack applications and developed an understanding of scalable software architecture

Projects

Famous Food of India

- Developed a culinary blog that explores the diverse flavors of Indian cuisine, showcasing traditional recipes, regional specialties, and food culture insights.
- The website serves as a go-to resource for food enthusiasts looking for authentic Indian cooking tips.
- Technologies Used: HTML, CSS, JavaScript

Editable Resume Web Application

- Created an innovative web application that allows users to create and customize their resumes online.
- Designed a clean, user-friendly interface with editable sections for real-time updates and instant visual feedback.
- Integrated features for toggling between different templates and downloading resumes as PDFs.
- Technologies Used: JavaScript, HTML, CSS

Cab Booking System

- Designed and implemented a cab booking system that enables users to book, manage, and track rides efficiently.
- Developed a backend using Java and SQL for handling ride data, booking management, and tracking.
- Technologies Used: Java (Backend), Swing (Frontend), MySQL (Database)

Online Code Editor

- Built a customizable online code editor with features like theme switching, text color options, and an interactive music player.
- Deployed the editor on GitHub Pages for public use, integrating a sleek UI with responsive design.
- Technologies Used: HTML, CSS, JavaScript, Vue.js

Skills:

Programming Languages:Java, JavaScript, HTML, CSS

Databases:SQL, Firebase

Development Tools:Android Studio, Git

Technologies & Frameworks:Vue.js, Swing (Java),React

Specialized Areas:Data Structures

Soft Skills:Communication, Teamwork, Time Management
